

LASHA ERGESHDZE

Full-Stack Developer — React / Next.js

Tbilisi, Georgia | +995 598 60 90 70 | lashaergeshidze638@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

SUMMARY

Full-stack developer building responsive, high-performance web applications with React, Next.js, and Tailwind CSS. Currently a Software Engineer Intern at Making Science, contributing to production React features. Comfortable owning a project end-to-end — from architecture and API integration to deployment and CI/CD.

EXPERIENCE

Software Engineer Intern | Making Science

Sep 2026 – Present

Tbilisi, Georgia · On-site · Full-time

- Develop and maintain front-end features in **React** within a professional engineering team, working from tickets through to review and deployment.
- Collaborate with senior engineers on production code, gaining exposure to team workflows, code review standards, and full-stack engineering practices.

PROJECTS

ITJobsGeorgia — Job Aggregator Platform | Personal Project

Aug 2025 – Sep 2025

React · Flask · Python (web scraping) · GitHub Actions · Netlify · Render

- Built a full-stack app that automatically scrapes and centralizes job listings, solving a real gap in the local job-hunting experience.
- Paired a **React** frontend with a **Flask** backend and automated Python scraping jobs; deployed with a **GitHub Actions** CI/CD pipeline across Netlify and Render.
- [Live demo](#)

ClientFlow — Client & Project Management Dashboard | Personal Project

React · Next.js · Tailwind CSS

- Built a project management and client-collaboration dashboard aimed at freelancers and small agencies, covering client updates, tasks, and studio activity in one place.
- [Live demo](#)

Personal Portfolio | Personal Project

- Designed and shipped a personal developer portfolio (lashaergeshidze.vercel.app) showcasing projects, skills, and services, built with a modern React/Next.js stack and deployed on Vercel.

EDUCATION

Front End with React | Skillwill College

Sep 2025 – Apr 2026

- Hands-on program covering modern JavaScript (ES6+), React & React Native, state management (Redux, Context API), TypeScript, server communication (REST/GraphQL), testing, Docker, and CI/CD.
- Completed group projects and a mentored final assignment applying full-stack and mobile development skills.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React, Next.js, Redux, TanStack Query, React Hook Form, Zod, Tailwind CSS, Sass, Vite

Backend: ASP.NET Core, Entity Framework Core, RESTful APIs

Tools: Git/GitHub, GitHub Actions, Docker, Netlify, Render, Vercel, Linux
